## **DETAILED ACTION**

## Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- 2. Claims 1-8 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Yamada (USPN 5,706,969).

With respect to claim 1, Yamada shows an inner vessel (2) an outer vessel (3) is arranged in the outer vessel (3) with a gap (4) there between, a bag (5) filed with a low thermal conductivity gas of at least one of Argon, Xenon, and Krypton. A reinforcement member (7) made of a material whose rigidity is higher than that of a composition material of the bag.

With respect to claim 2, Yamada shows reinforcement member (7) is arranged at more than two sides of the bag.

With respect to claims 3,4, Yamada shows a first protrusion or a first cavity in the center, a second cavity (4), formed on the reinforcement member (7), and a bag (5) can be easily inserted into the gap.

With respect to claims 5,6,7,8, Yamada shows polygonal shapes (fig.2), Yamada further shows a protrusion formed on each of the reinforcement member of each bag,

Art Unit: 3727

wherein the protrusion of the reinforcement member of one of the bags engages with the corresponding cavity (fig. 5). The bags can be easily inserted into the gap.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Shawn M. Braden whose telephone number is (571)272-8026. The examiner can normally be reached on Mon-Thurs 8-6:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Nathan Newhouse can be reached on 571 272-4544. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
